

Guideline for DXN International Sponsoring and Purchase Outside of Australia and New Zealand

Your DXN membership is recognized worldwide in any country where DXN operates. Below is a useful guide for Australia members intending to develop his/her DXN Business internationally.

- International sponsoring without travel
 1. Provide your membership details (full name and 9 digits member code) to the prospective new member residing overseas;
 2. Inform your prospect to purchase a member kit from their nearest DXN branch in the country and place you as their Australian sponsor;
 3. DXN staff of overseas branch will validate your membership details and complete the new member's registration process.

- International sponsoring/purchase with overseas traveling
 1. Have your membership code with you;
 2. Ask the staff to validate and register your membership in that country when you visiting a branch;
 3. Purchase of DXN products and/or sponsoring new member may be done immediately thereafter.

Please Note:

1. DXN branches update membership information onto DXN Headquarter database on a daily basis, therefore in most cases you will not have to contact DXN Australia office for matters regarding membership validation.
2. Members who intend to sponsor new prospects overseas where DXN has no market presence can promote DXN Australia's membership kits (issued with Australian member code). The new member may choose to receive bonus payments in one of the following forms: a. nominate an Australian bank account (friend or relative) for DXN to deposit any bonus due; b. utilize the bonus for future DXN purchases or c. accumulate the bonus for cash-out when visiting Australia office.
