

DXN Vinaigrette Promotion:

DXN Vinaigrette is made from specially selected Chinese Red Rice, Ganoderma extract and Monascus (rice fermented with Red Yeast). This very special class of vinegar is one of the four most renowned premium vinegars in China. The two-year fermentation (in 600 year old vats) ensures its absolute quality with maximum enzymes content.

The health benefits of the enzymes in vinegar are extremely important to the gastro-intestinal tract, as well as the normal functioning of the glandular system. Monascus is the basis for modern cholesterol-lowering aid, and of course Ganoderma is well known for its own health benefits.

From 15th June through to the end of August, DXN is offering a very special promotion for this excellent and versatile product that can be used in everyday cooking, drizzled over salads or just to sip on its own to help keep your body PH balanced.
